AC-CX62-AUHD

6 INPUT, 2 OUTPUT MULTI-FORMAT HDMI & HDBASET CLASSROOM/CONFERENCE

The ConferX 6x2 Matrix Switcher is the ideal solution for any conference room, classroom or huddle space. This 4K switcher can display any of the six sources through both the HDBaseT and HDMI output port. Each of these outputs are completely independent of each other allowing the user to show two sources at the same time. With additional audio inputs and outputs, working with a microphone or intercom system will not be a problem. With two HDBaseT inputs this switch works alongside two ConferX Wall Plate Transmitters at the same time. You can have Mini DisplayPort, HDMI, VGA or USB-C inputs located up to 100 meters away from the unit. This allows a teacher or presenter to use their laptop directly at the podium or presenters' station without having to connect anything to the matrix switcher. The AC-CX62-AUHD gives any end user a simplified experience for sharing their ideas inside a classroom, conference room or huddle space. When you need a stable solution for video distribution, look to the entire line of ConferX products.
