## Description

---

The **Altelix NF141210VP** features two 4 inch air vents covered by rain shields, with cleanable screens. It is ideal for protecting equipment from harsh environments and tampering, while allowing ventilation for installed equipment or batteries.

**Aluminum Equipment Plate** - This enclosure features an easy to drill aluminum equipment mounting plate. The enclosure and plate can be drilled and modified by the installer to suit unique site requirements.

**Extreme Protection Built to Last** - This rugged JIC style NEMA box is molded from durable UV stable and corrosion resistant fiberglass reinforced polyester (FRP) with a UL94-5V flame rating. The FRP material is dent-proof, non-conductive and RF transparent for compatibility with wireless equipment. It can be easily drilled and modified by the installer as needed. The enclosure features a gasketed door with stainless steel continuous hinge and stainless steel quick release latches with padlock hasps.

**Increased Interior Space** - The NF141210 series enclosures feature an extra deep lid, almost 2 inches deeper than our NF141208 series enclosures. With the generous size of this enclosure and extended lid the NF141210 can accommodate a wide range of equipment.

**Mounting** - Stainless steel brackets are included for secure wall mounting. Optional flange and pole mounting kits are available.
