QuikPush™ Customer Terminal Medium

The medium QuikPush customer terminal (QP_MCT) from PPC is a sleek and versatile termination point for FTTH deployments.

This terminal is typically inside the customer dwelling and connects to the Network Access Point using PPC's pre-terminated QuikPush Drop Cable. The QP-MCT is the ideal complement to the QuikPush drop cables due to its impressive slack storage capability (up to 8 meters).

The QP-MCT allows for convenient routing, storage and interface of optical fiber from the network provider to the end user's Optical Network Terminals.

Advantages:

- Allows for 100% splice-less FTTH installations
- IP55 protection from dust and water
- Accommodates 2 x SC or LC duplex adapters
- Capacity for 2 drop cables per enclosure
- Easy installation using removable wall mount plate
- Slim and compact design with contoured cover
- Slack cable storage for up to 8 meters (26.2 feet) of Ø3mm Miniflex cable
- Supplied with wall fixings, splice protector and cable ties

Applications

- Fiber To The Home
- Multi-Dwelling Units
- Premise installations
- Telecommunications

Compatibility List:

- All PPC and industry standard cable
- QuikPush™ cable connector (SC & LC)
- PPC Microduct
